1 Where is a potential analysis useful?

1 How to realise the potential analysis?

potential analysis can be realised by different instruments:

- assessment centres
- interest tests
- aptitude tests

1 Characteristics of assessment centres

participants are under observation

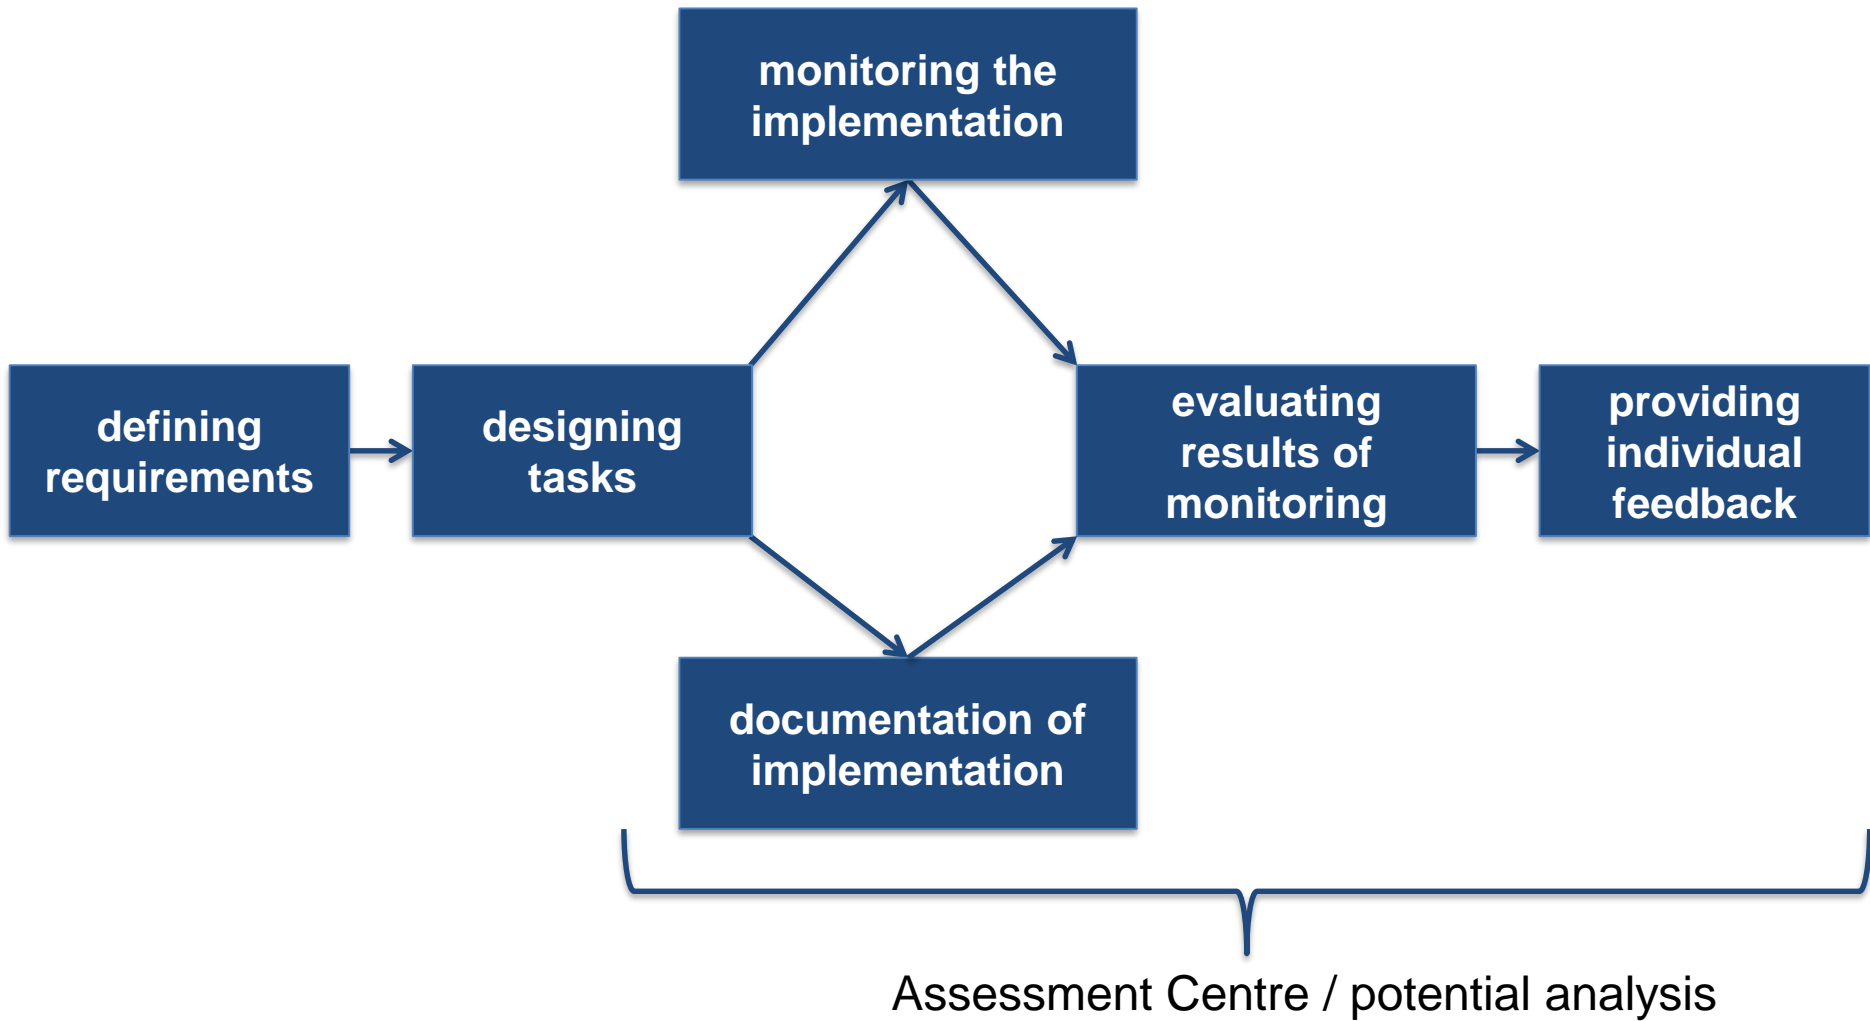

- in different situations
- over a long period of time
- by qualified observers

the validity of the results of the assessment centres depends on the correlation between

- assessed competences
- and future requirements

Schäfer 2011, p.99
